Retention Policy

Student retention in the Professional Teacher Education Program is based upon the academic and professional judgment of the university faculty responsible for the evaluation of the student’s academic and student teaching performance. Throughout each term, faculty members and student teaching supervisors meet to evaluate each student’s progress in academic work and student teaching effectiveness. Those students assessed as having difficulty will receive feedback concerning their progress from their advisor and other appropriate university faculty. The faculty considers not only academic abilities and skill performance when making retention decisions about students, but also such aspects as whether the student has appropriate levels of maturity, judgment, emotional stability, sensitivity to others and whether or not the student exhibits appropriate professional conduct.

The teacher education faculty has developed this Retention Policy based upon continuous evaluations of students in the Professional Teacher Education Program by university faculty and staff, and by public-school Cooperating Teachers and administrators. Students are evaluated on the benchmarks established by each program and on their ability to successfully plan for instruction; establish a classroom climate conducive to learning; exhibit professional behaviors, ethics and values; evaluate student progress; and on their ability to engage students in planned learning activities. The following information and procedures are established to guide decisions regarding the retention of students in the program.

1. Academic Standards

Students must meet the academic standards of the program in order to continue in the Professional Teacher Education Program. (3.0 OSU GPA, 3.0 GPA in TCE coursework, and 3.0 GPA in content mastery.) In addition, a grade of “B” or better is required in all 510 Internship courses. Each program provides students with benchmarks of required practicum, student teaching, and student academic performance that indicate successful completion of each step throughout the program. In addition, course outlines may define academic performance necessary for continuation in the program. The academic standards as outlined in the benchmarks and course syllabi must be met in order to continue.

2. Professional/Ethical Standards

According to various accreditation organizations (NCATE, ACA, TSPC, Oregon OARs, Public Schools, NGOs, Non-Profits), all candidates seeking accreditation and licensure or graduating from the College of Education at Oregon State University must meet all professional standards of practice, evidence of proper dispositions within their chosen field, as well as complying with the University Student Conduct Regulations (http://oregonstate.edu/admin/stucon/regs.htm). Professional behavior includes respect, honor and integrity, altruism, responsibility and accountability, leadership, caring, compassion, communication, and excellence of scholarship. Proper dispositions include the values, commitments, and professional ethics which positively influence behaviors toward students, families, colleagues, communities, and technology use. They affect student or client learning, motivation, and development, as well as their own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice.

In addition to high standards for academic achievement and to the profession, the College of Education at Oregon State University holds candidates accountable during their studies and in their work in the field in both academics and practice. It is not sufficient to perform well academically, yet behave in ways that decrease the quality of the professional work. In other words, personal "issues" and personality characteristics that influence job performance may be considered as vital as the ability to write papers that present information. The candidate must demonstrate acceptable professional behavior in five key areas:

I. Professional conduct toward students, clients, youth, and adult learners;

II. Professional practice;

III. Professional conduct toward professional colleagues, including university faculty, staff, and Student Teaching and field placement supervisors and administrators;

IV. Professional conduct toward the general community, including educators, parents, and other community members

V. Technology use that includes “netiquette”, ensuring copyright, not plagiarizing, not using computers inappropriately for pornography or personal gain.

If candidates meet or exceed the standards of professional behavior, they will continue in the chosen field of study without interruption. If candidates do not meet the standards, they must go through the following procedures which may result in
A student may be removed from a practicum or student teaching site by the Professional Teacher Education Program if his or her performance does not meet benchmark requirements, or if performance is determined to be consistently inadequate, inappropriate, or unprofessional by the university supervisor. Furthermore, a student will be removed immediately from the site school at the request of the school principal (or appropriate administrator).

The process identified in the steps below may be afforded the student if it is felt that he or she is not making satisfactory progress as outlined in the benchmarks and/or course syllabi:

1. **Infraction is reported to Program Lead by any College of Education faculty, staff, or affiliate.**

2. **Program Lead investigates.**
   - **If not an infraction, no action is taken.**
   - **If the Program Lead determines that an infraction has occurred, he/she alerts the Department Chair.**

3. **The Program Lead meets with the student to discuss the infraction.**
   - **If the problem is successfully resolved, the Program Lead places documentation in the file and notifies the Department Chair.**
   - **If the problem is not successfully resolved, if it is a repeat infraction, or if the infraction is deemed serious enough to jeopardize licensure or continuation in the program, the Program Lead collaborates with the Department Chair to develop a Plan of Assistance for the student.**

4. **The Program Lead meets with the student, implements the Plan of Assistance.**
   - **If the problem is successfully resolved, the Program Lead places documentation in the file and notifies the Department Chair.**
   - **If the problem is not resolved through the Plan of Assistance, if another infraction occurs, or if the original infraction is serious enough to disapprove licensure or continuation in the program, the Program Lead may, upon agreement with the Department Chair, drop the student from the program. The Dean is notified.**

5. **The student is notified. The student may appeal by providing documentation to the Dean.**
