### Business Administration: Program Overview

Students in the College of Business take courses in several business disciplines so that they have a holistic business perspective, which is especially important in smaller and entrepreneurial environments. Emphasis is not only placed on the concepts and analytical techniques of business decision-making, but also on the responsibilities and opportunities of businesses to be socially responsible. The program is broad so it serves students as they pursue many interests and as they change focus in their career path. It enables students to work in many industries and prepares students for successful careers in the highly competitive global business environment.

### Degree Planning Notes:

- Consider applying for Degree Partnership Program (DPP) to take OSU and COCC courses simultaneously.
- Use the major webpages to find more resources to plan classes and when to transfer.
