Bachelor of Science in Computer Science<br>Applied Option: Software Engineering<br>Applied Option: Software Entrepreneurship<br>2023-24 Catalog Year<br>subject to change and catalog regulations.

## Program Overview

Computer science is the study of the theory, design, development and application of computational systems, especially in the form of software. It includes artificial intelligence, human-computer interaction, computer graphics, cybersecurity, and more. Computer science on the Cascades campus emphasizes two specific areas: software engineering, and web \& mobile software development. In this program you will learn the foundations of computer science theory, and the skills necessary for building scalable, long-lasting software systems. Graduates of the program typically achieve employment as software engineers, a rewarding, creative, and highly-sought area of expertise.

What is the Software Engineering applied option? The Software Engineering path is a predefined set of courses that guide students in becoming a successful software engineers. The courses are very hands-on, and students take a second-year course in software development, three software engineering courses, and a senior-year experience of building software products. In addition, students may choose electives such as mobile application development, cloud application development, machine learning, and network security.

What is the Software Entrepreneurship applied option? The Software Entrepreneurship path cultivates an entrepreneurial mindset, with business-oriented knowledge needed by startups and innovation divisions within larger organizations. Students take business courses in entrepreneurship, project management, and finance. In addition, students may choose electives such as mobile application development, cloud application development, machine learning, and network security.

## Computer Science Learning Goals and Objectives

The outcomes describe the knowledge and capabilities expected of each computer science graduate:

1. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution.
2. Ability to function effectively on teams to accomplish a common goal.
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
4. An ability to function effectively on teams to accomplish a common goal.
5. An understanding of professional, ethical, legal, security and social issues and responsibilities.
6. An ability to communicate effectively with a range of audiences.
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society.
8. Recognition of the need for and an ability to engage in continuing professional development.
9. An ability to use current techniques, skills, and tools necessary for computing practice.
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
11. An ability to apply design and development principles in the construction of software systems of varying complexity.

## Degree Requirements

Students completing the CS major complete the following requirements.
University Graduation Requirements
College of Engineering Requirements
Baccalaureate Core
CS major courses
Specialty Option (track)

## Program Requirements

OSU Graduation Requirement:
Students are required to meet the University Graduation requirements as well as complete course work required for their major to graduate with a Bachelor of Science in Energy Systems Engineering. *All catalog and course selection information is subject to change pending catalog declaration year. catalog.oreqonstate.edu/requlations/\#text

- 180 minimum $=$ total number of credits required to graduate
- 60 minimum = number of upper division credits required
- 45 of last 75 credits must be OSU credits
- Max 135 credits transferred to OSU
- Max 18 W grades (withdraw)
- Max 11 credits PAC (Physical Activity Course)

## College of Engineering Academic Standing

Progression Model

- Grades of C or better and a minimum of 2.50 cumulative OSU GPA
- Maintain 2.50 term and/or cumulative OSU GPA and $65 \%$ of courses completed
- Warning: OSU term GPA is below a 2.50 and/or completion is under $65 \%$
- Probation: After 24 OSU credits attempted, if both term and cumulative standards are not met
- Suspension: If on probation and have a subsequent term OSU GPA under 2.50 and/or pace under 65\%
- S/U Grading: CS students may not take for S/U grading (Satisfactory/Unsatisfactory) any course listed as a requirement for the major.
Academic Progression Model Information: https://engineering.oregonstate.edu/current-students/advising/progression

## Important Notes:

- It is the student's responsibility to double check that all requirements are met. The advisor can suggest courses and assist the student in constructing a plan of study, but the student in the end is responsible for assuring all requirements for graduation are met.
- Degree requirements are subject to change and dependent on catalog year of admission and major declaration.

Students will work with their Academic Advisor and use the Bacc Core approved list for OSU-Cascades to choose courses for the Bacc Core requirements. To find information about Bacc Core or for the approved list, visit: https://admissions.oregonstate.edu/coursearticulations

Student Name: $\qquad$ ID\#: $\qquad$

## Baccalaureate Core:

Use the OSU-Cascades Bacc Core course guide to plan courses osucascades.edu/advising/baccalaureate-core An ASOT-Business or an AAOT has completed all Skills \& Perspectives requirements in the Bacc Core.

| Skills Requirements | Course | Grade |
| :---: | :---: | :---: |
| Health/Fitness |  |  |
| Mathematics | MTH 251 in major |  |
| Writing ${ }^{\wedge}$ | WR 121z in major |  |
| Writing II^ | WR 214 in major |  |
| Speech^ | COMM 111z or 114 in major |  |
| Perspective Requirements: no more than 2 from 1 department |  |  |
| Cultural Diversity |  |  |
| Literature \& the Arts |  |  |
| Social Processes \& Institutions - (ECON 201 recommended) |  |  |
| Western Culture |  |  |
| Physical Science |  |  |
| Biological Science |  |  |
| Additional Science (Physical or Biological) |  |  |
| Difference, Power \& Discrimination |  |  |
| Synthesis Requirements: cannot be from the same department |  |  |
| Contemporary Global Issues |  |  |
| Science, Technology \& Society | CS 391 in major |  |

## Major Requirements

First \& Second year courses: All courses must be completed with a C grade or better

| $\mathbf{x}$ | Course | Title | Pre-requisites | Credits <br> Term <br> Offered* | Grade | COMM 111z or <br> COMM 114 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | Public Speaking or Argument \& Critical Discourse |  | 4 or 3 | F, W, SP |  |  |
|  | CS 162 | Introduction to Computer Science II | ENGR 103 or CS 161 | 4 | F |  |
|  | CS 261 | Data Structures | CS 162 \& MTH 231 | 4 | W |  |
|  | CS 271 | Computer Architecture \& Assembly Language | ENGR 103 or CS 161 | 4 | F |  |
|  | CS 290 | Web Development | CS 162 | 4 | SP |  |
|  | ENGR 100 | The OSU Engineering Student |  | 3 | F |  |
|  | ENGR 102 | Design Engineering and Problem Solving |  | 3 | W |  |
|  | ENGR 103 | Engineering Computation and Algorithmic Thinking | ENGR 102 \& MTH 112z | 3 | SP |  |
|  | MTH 231 | Discrete Mathematics | MTH 111z | 4 | SP |  |
|  | MTH 251 | Differential Calculus | MTH 112z | 4 | F, W, SU |  |
|  | MTH 252 | Integral Calculus | MTH 251 | 4 | W, SP, SU |  |
|  | ST 314 | Introduction to Statistics for Engineers | MTH 252 | 3 | SP, SU |  |
|  | WR 121z | Composition I | WR 121z^ | 4 | F, W, SP |  |
|  | WR 214 | Writing in Business | WR 121z^ | 3 | TBD |  |
|  | WR 227z | Technical Writing |  | 4 | W, SP, SU |  |

Third \& Fourth year courses: All courses must be completed with a C grade or better

| x | Course | Title | Pre-requisites | Credits | Term Offered* | Grade |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | CS 325 | Analysis of Algorithms | CS 261, \& MTH 231 | 4 | SP |  |
|  | CS 340 | Introduction to Databases | CS 290 (request pre-req override) | 4 | W |  |
|  | CS 374 | Operating Systems I | CS 261, CS 271, \& C programming | 4 | W |  |
|  | CS 352 | Introduction to Usability Engineering | ENGR 103 or CS 161 | 4 | F |  |
|  | CS 361 | Software Engineering I | CS 261 | 4 | F |  |
|  | CS 362 | Software Engineering II | CS 261 (CS 361 recommended) | 4 | W |  |
|  | CS 372 | Introduction to Computer Networks | CS 261, CS 271, C programming, \& Unix | 4 | F |  |
|  | CS 381 | Programming Language Fundamentals | CS 261 \& MTH 231 | 4 | SP |  |
|  | CS 391 | Social and Ethical Issues in CS | CS 101 or computer literacy | 3 | F |  |
|  | CS 474 | Operating Systems II | CS 344 \& CS 271 | 4 | SP |  |
|  | CS 461 (WIC) | Senior Software Engineering Project | CS 361, CS 325, \& CS 362 <br> Co-requisite: CS 466 | 3 | F |  |
|  | CS 462 (WIC) | Senior Software Engineering Project | CS 362 \& CS 461 | 3 | W |  |
|  | CS 463 | Senior Software Engineering Project | CS 462 | 2 | SP |  |
|  | Restricted Elective | Choose (1) course in applied option (except for CS 401). <br> Includes most 300/400 level CS courses. | See course restrictions. <br> See Academic Advisor for Restricted Elective information. Restricted Electives cannot be used to meet both Applied Option \& Restricted Elective requirement. | 3-4 | Varies |  |
|  | Restricted Elective | Choose (1) course in applied option (except for CS 401). <br> Includes most 300/400 level CS courses. | See course restrictions. <br> See Academic Advisor for Restricted <br> Elective information. Restricted <br> Electives cannot be used to meet both <br> Applied Option \& Restricted Elective requirement. | 3-4 | Varies |  |

## Completion of an approved applied option is required for the Computer Science degree.

The Software Engineering and Software Entrepreneurship applied options are unique options available only at the Cascades campus. Students interested in applied options offered only on the main (Corvallis) campus should plan to transfer to the main campus, or speak with an advisor on creating a custom applied option plan.

Applied Option: Software Engineering (32 credits): C grade or better

| $\mathbf{x}$ | Course | Title | Pre-requisites | Credits | Term Offered* | Grade |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Required courses (16 credits) |  |  |  |  |  |  |
|  | SE 303 | Software Engineering III * <br> *SE303 may be replaced by either: <br> 1. one of the non-required CS electives listed in the table (below) or <br> 2. an alternate upper-level CS course with advisor's approval. | CS 362 | 4 | TBD |  |
|  | CS 466 | Web-based Start-up Project | Co-requisite: CS 461 | 4 | F |  |
|  | CS 492 | Mobile Software Development | CS 344 | 4 | W |  |
|  | CS 493 | Cloud Application Development | CS 290, CS 340, \& CS 372 | 4 | SP |  |
| Choose (16 credits) from the following: |  |  |  |  |  |  |
|  | CS 331 | Introduction to Artificial Intelligence | CS 325 | 4 | SP |  |
|  | CS 373 | Defense Against the Dark Arts | CS 344, CS 340, \& CS 372 | 4 | Online only |  |
|  | CS 406 | Projects | Instructor Approval | 1-16 | Varies |  |
|  | CS 434 | Machine Learning \& Data Mining | CS 325 \& ST 314 | 4 | F |  |
|  | CS 440 | Database Management Systems | CS 261 \& CS 340 | 4 | TBD |  |
|  | CS 447 | Wireless Embedded Systems | CS 344 | 4 | TBD |  |
|  | CS 475 | Introduction to Parallel Programming | CS 261 | 4 | SP |  |

$\left[\begin{array}{|l|l|l|c|l|l|}\hline & \text { CS 478 } & \text { Network Security } & \text { CS 372 } & 4 & \text { W } \\ \hline & \text { CS 401 } & \text { Research (Not allowed as Restricted CS Core Elective) } & \text { Instructor Approval } & 1-16 & \text { Varies } \\ \hline & \text { CS 370 } & \text { Introduction to Security } & \text { CS 344 } & 4 & \text { Online only } \\ \hline & \text { CS 464 } & \text { Open-Source Software } & \text { CS 261 \& 361 } & 4 & \text { Online only } \\ \hline & \text { CS 450 } & \text { Introduction to Computer Graphics } & \text { CS 261 } & 4 & \text { Online only } \\ \hline & \text { CS 427 } & \text { Cryptography } & \text { CS 261 } & 4 & \text { Online only } \\ \hline\end{array}\right]$

Applied Option: Software Entrepreneurship (32 credits): C grade or better

| $\mathbf{x}$ | Course | Title | Pre-requisites | Credits | Term Offered* | Grade |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Required courses (16 credits) |  |  |  |  |  |  |
|  | BA 260 | Introduction to Entrepreneurship | Sophomore standing | 4 | F, SP |  |
|  | CS 466 | Web-based Start-up Project | Co-requisite: CS 461 | 4 | F |  |
|  | CS 492 | Mobile Software Development | CS 344 | 4 | W |  |
|  | CS 493 | Cloud Application Development | CS 290, CS 340, \& CS 372 | 4 | SP |  |
| Choose (16 credits) from the following: |  |  |  |  |  |  |
|  | BA 315 | Accounting for Decision Making | Junior standing | 4 | SP |  |
|  | BA 352 or BA 351 | Individual \& Team Performance or Managing Organizations (online only) | COMM 111z or 114, 227z, \& Junior Standing | 4 | F, SP |  |
|  | BA 360 | Introduction to Financial Management | BA 315 \& ECON 201 | 4 | F, SP |  |
|  | CS 406 | Projects | Instructor Approval | 1-16 | Varies |  |
|  | CS 434 | Machine Learning and Data Mining | CS 325 \& ST 314 | 4 | F |  |
|  | CS 440 | Database Management Systems | CS 261 \& CS 340 | 4 | TBD |  |
|  | CS 478 | Network Security | CS 372 | 4 | W |  |
|  | CS 401 | Research (Not allowed as Restricted CS Core Elective) | Instructor Approval | 1-16 | Varies |  |

Choose Your Own Path: In addition to the two paths above, students may also design their own "applied option." Students may take up to 32 credits representing a cohesive area of focused study ( 20 of the 32 credits must upper division (300-400) credits)). Some examples include server-side game development, computational biology, geographic information systems, and generative art. Students interested in designing their own applied option should speak with their advisor.
